Other statutory waivers	College Option		College Option	

Technical colleges may increase the 2011-12 operating fee rates by no more than the percentage increase authorized for community colleges by the State Board, or fully adopt the tuition fee charge schedule adopted by the State Board for community colleges, as provided by 2ESHB 1087, Section 604 (4).

Trustees of the technical colleges are authorized in 2ESHB 1087, Section 604(5), to increase building fees by an amount judged reasonable in order to progress toward parity with the building fees charged students attending the community college, for academic years 2011-2012 and 2012-2013. The technical colleges can reach parity with the community college building fee schedule in four years by charging \$4.57 per credit for the first ten credits, \$3.79 per credit for eleven through eighteen credits and no additional building fee for credits over eighteen for the 2011-12 academic year.

Colleges are authorized to charge tuition to Running Start students when the student's choice of credit load exceeds the level that will be reimbursed by the school district.
