

Here is the agenda for the Science Design Workshop, to be held July 14th from 9:00 to noon at Clover Park Technical College – Building 3 Rotunda. (Directions below.)

9:00 Welcome – Tom Henderson, State Board for Community and Technical Colleges

9:15 – 10:30

Panel #1 – Architect & Design Perspective

Ralph Belton – SRG Partnership

Norm Strong – The Miller/Hull Partnership

Laura Hill – SRG Partnership

Sean Towne – RSD

- Importance of gaining a common understanding of “Net to Gross” and “Cost per Square Foot”
- What’s new in the development of Science buildings for instruction?
- Interiors – Laboratories 101 and rules of thumb.
- Trends for green aspects of science buildings.

10:30 – 11:30

Panel #2 – College Perspective

Sam Ball – Green River Community College

Bear Holmes – Olympic College

Brian Keeley – Whatcom Community College

- Past and current experiences – what’s important for design?
- The facility maintenance perspective.
- The 4-year standard – how relevant to the community and technical colleges? Lessons learned. (I’m still working on getting someone from the 4-year system to attend.)

Wrap up and final Q&A – 30 minutes
