Articulation and Transfer Council
Fall Meeting Agenda
OCTOBER 11-12, 2023

*AI advances are spurring discussions across all higher ed sectors. Debates over policy, pedagogy, and other opportunities and concerns have arisen. Before our discussion on the 11th, please talk with your campus colleagues about the following questions.

- How is your college approaching the uses of AI within your class and public-facing spaces?
- What are you telling your faculty and staff about AI?
- What resources have you found helpful?

Our PD discussion will focus on what is already out there and will later work towards helping deans of instruction navigate AI impacts on students, faculty, and staff within our care.
